DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

- Claims 1 and 24: The prior art does not show the heating device adapted to be incrementally controlled to increase or decrease heat produced by the heating device in response to a number of coupled or uncoupled individual interconnects in the series of interconnects sensed by the sensor.

This in combination with all the other elements pertaining to each of the above mentioned claims are reasons for allowable subject matter and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
